

PSFVIP-11

The 11th Pacific Symposium on Flow
Visualization and Image Processing

Kumamoto University, Kumamoto, Japan, 1(Fri)-3(Sun) December 2017

--- Second announcement ---

Scope

The objective of this Symposium is to provide an opportunity for world-wide researches and engineers in all areas of flow visualization, image processing and related techniques to exchange knowledge and new experience in the spirit of collaboration and friendship. Papers dealing with current research ranging from fundamental principles and techniques to applications on the above topics are appropriate. Topics include, but are not limited to, flow field visualization, surface flow visualization, computer assisted techniques, graphical display of data, digital image processing and CFD studies.
